Aqua mat

WOOPL TECH

MAXIMUM PERFORMANCE PUMP

MAXIMUM PERFORMANCE MINIMUM REJECTION

Reverse osmosis with pump

Greaterproduction. Allows working with lowinlet pressure.
Quick connections, low rejection Aquamat membrane for greater equipment performance.-
Operation with pressurized tank of 7 accumulated liters (according to network pressure).

Includes all mounting hardware and countertop faucet. 200GPDM high-performance membrane
Improves water quality, eliminating flavors, and reducing the concentration of various components dissolved in the water, providing water with low mineralization and optimal quality.

TECHNICAL CHARACTERISTICS

WEIGHT:	13,5 kg.
INLET TEMPERATURE (min. - max.):	2 °C - 40 °C
TDS INPUT:	2.000 ppm
INLET PRESSURE (min. - max.):	1 - 6 bar
MEMBRANE:	Membrana 200GPD
ACCUMULATION TANK CAPACITY:	7 L. (depending on inlet pressure).

DIMENSIONS (mm.)
